OBJECTIVE

To obtain a promising career in an innovative organization where I can utilize my capabilities and technical skills and contribute consistently and significantly to the organization.

PERSONAL PROJECTS

- **Online Web Development Editor** VISIT: <https://rohith1112.github.io/WebDevelopmentEditor/>
 - Developed a fully responsive React-based prototype for a CodePen Clone, integrating the CodeMirror package to enhance the coding experience. This project showcases my proficiency in React development and my ability to leverage external libraries for advanced features. Users can experiment with HTML, CSS, and JavaScript within a dynamic CodeMirror-powered editor. Although the project is in its prototype stage with limited functionality.
- **Personal Portfolio Website** VISIT: <https://rohith1112.github.io/Portfolio/>
 - Developed a personal portfolio website to spotlight your skills, projects, and professional journey. Feature an introduction, an "About Me" section, a project portfolio, and a skills list with a downloadable resume. Ensure a visually appealing, responsive design using HTML5, CSS3, JavaScript, Bootstrap. Optimize for user-friendly navigation and consider deploying on GitHub Pages or Netlify for enhanced online visibility and collaboration opportunities.
- Additionally, I undertook several minor projects, all of which are available for review on my portfolio.
 - **Note Making App** - Which uses the browser's local storage to store the data and also provides a user-friendly interface, allowing effortless organization and retrieval of notes based on categories.
 - **Tic Tac Toe – Game** - This project showcases responsive design and a polished user interface, offering a classic yet enjoyable gaming experience.
 - **Netflix Homepage** - using HTML, CSS, and JavaScript to showcase the front-end development skills. This project is designed to provide with hands-on experience in building a web page resembling the popular streaming site.
